ANGELINA JOLIE

Lip Love

The hair! The makeup! The all-around iconic head-to-toe style that seems to get better and better with age! But no discussion of Angelina would be complete without a nod to those famous lips. "Lip liner is a must," says celebrity makeup artist Kimara Ahnert, who adds that healthy-looking skin, defined eyes and sheer foundation are also behind Angelina's classic look. "We lose color and volume in our lips as we age, so it's important to define them with a color that coordinates with your lipstick or gloss."

REAL-LIFE ADVICE

Even if you weren't born with Angelina-esque lips, Ahnert says "going subtle" with your lip color can go far if you layer with some luster in the form of gloss or sheer lipstick on top.
